# Certification Number Updates

## Upload Certification Updates for Generator

Upload a CSV (comma-separated-value) file directly from your computer:

This screen provides the ability to upload new certification numbers for existing generators via a CSV file.

Enter the data in the CSV file in the following order:

- A: Facility ID
- B: Fuel Type
- C: State Abbreviation
- D: State RPS Program
- E: State Certification Number

[Click here](#) to review help for certification program updates.

[Click here](#) to download the file format.

[Privacy Policy](#)

- Gives the capability to upload multiple State certification updates at one time.
- Saves time entering data or sending an email to the GATS Administrators.
- Once approved by the GATS Administrators, you will receive a confirmation or rejection notification through email.

## Planned Enhancements
